Ford Race Team build - Revell F350 Duallie - Ford Mustang GT350R, and Galaxie Unlimited Race Trailer !

The newest edition of [Scale Model Life](#) is out.

In this issue I've filled it with some great model kits. The AMT Wedge Dragster makes it's mark after decades of never being released. I built a few of them as a kid, so it's nice to see it out again.

The new Moebius Models Mercury Comet Cyclone hits the stage with some mild modifications and a street machine attitude. The Ford Race Team gets ready for the track using a Monogram Ford F350 Duallie, with a matching Revell 1966 Ford Mustangs Shelby GT350R. Both work well with a build of the 38' foot Galaxie Unlimited Race Trailer.

Check out Revell's new pre-colored modern muscle Dodge SRT8 kit. It's a worthwhile and easy car to build. Tom Daniel's Vandal gets a make over as a highway patrol (sort of). To round out the kits included, there's a Fujimi Ford GT40 from LeMans. As always, you'll see modeling tips, ideas, mods, and ideas for you to try.

I had fun with this issue, and for the most part, none of the kits had two many problems to deal with. But I hope the info here helps you with your model projects in the future.

Keep building!
